

## Servicing The P.O.P. Display Market

Independent Corrugator Inc. (ICI) has long established a reputation as a dedicated supplier of corrugated products and services to the retail merchandising Display market. Our unique array of products has been associated with award-winning point-of-purchase displays throughout the global market. Choose ICI for all your graphic substrates for direct print, vibrant I-COAT™ color coatings and laminating services.

### I-COAT™

P.O.P. Displays must certainly be "eye-catching" to enhance merchandising product visibility and consumer attraction. ICI has a unique process to convert your display into a rainbow of colors, with our I-COAT™ coating system.

I-COAT™ is a roll-to-roll coating system that will transform your substrate or our corrugated products with bright, vibrant colors designed to your customer requirements.

Applying a consistent and uniform ink coverage, I-COAT™ will color match any Pantone (PMS) color or Custom specific color to enhance your P.O.P. Display appeal.

Our I-COAT™ system is available to meet all your requirements!

	<b>I-COAT™ #1</b>	<b>I-COAT™ #2</b>
Max. Roll Width:	80"	98"
Min. Roll Width:	22"	22"
Core Size:	4" - 12"	4" - 12"

## Servicing The P.O.P. Display Market

### Graphic Substrates

ICI offers a complete range of corrugated flute constructions, including micro flutes which, when combined with our graphic substrates, provides a superior smooth printing surface for your flexo and/or litho off set printing process. Our specialty substrates are well suited for silk screening operations, rendering excellent ink adhesion and print hold out, coupled with a high gloss finish to capture consumer appeal.
